# Program Overview

The Frisco Band offers its members countless opportunities to grow musically as well as personally.

Through developing strong work habits and learning to work together as a team, Band members develop life-long skills that will serve them in whatever future pursuits they choose.

Our goal is for all of our students to develop a lasting affinity for music, and become positive role-models and citizens.

5

The true purpose of arts education is not necessarily to create more professional dancers or artists. [It's] to create more complete human beings who are critical thinkers, who have curious minds, who can lead productive lives.

KELLY POLLOCK

# Scheduling Band...

- ❖ Students should 'double-block' band (schedule on 'A day' and 'B day') to benefit the most from more frequent instruction and practice, and make the most progress.
- ❖ Special exceptions for students involved in other competitive or performance activities; we work well with all coaches and directors to find a balance.
- ❖ Remember that students CAN double block band for 4 years, and STILL have plenty of room to explore other electives!
